MATERIALS

15 grams (60 yards) fingering weight yarn
US 2 (2.75mm) knitting needles
Tapestry needle for weaving in ends

ABBREVIATIONS

st(s): stitch(es).

k: knit.

p: purl.

RS: right (public) side of the work.

WS: wrong (private) side of the work.

sl: slip st from left needle to right needle as if to purl. **Slip with yarn in back on RS rows and with yarn in front on WS rows.**

The first time you slip a pw2 or kw2 st, you will drop the extra wrap to create one elongated st.

kw2: k the st, wrapping yarn around needle twice. Bring both wraps through to complete the st. You will drop the extra wrap when you sl the st on the next row.

pw2: p the st, wrapping yarn around needle twice. Bring both wraps through to complete the st. You will drop the extra wrap when you sl the st on the next row.

RT: k the next 2 sts together but do not drop the sts from left-hand needle. Knit the first st again and then drop both sts from left-hand needle. The result looks like a right-leaning cable.

Cast on 38 sts using the long-tail cast on method.
